REEVE RAYMER OPTIMISTIC AS TO FUTURE OF MIRROR

Reeve Raymer drove to Bashaw, on business, Friday last, returning to Mirror the same evening.

Mr. Raymer informs us that threshing operations, which for the past few days have owing to inclement weather, been delayed, are once more proceeding, in the district through which he drove, but that only approximately 25 per cent. of the vast yield has been threshed. However, no difficulty is anticipated in handling the remainder of this year's record-breaking crop.

"During the course of my eleven-mile drive through this great grain-producing district," said the Reeve, in conversation with the "Journal" man, "I met and conversed with quite a number of farmers, and on every hand I found jubilation and entire satisfaction as to this year's grain yield.

"As a result of this drive through," as Mr. Raymer so aptly expresses it, "eleven miles of Prosperity and Optimism," I am more than ever convinced that the future of Mirror, as the distributing centre of a district unsurpassed in the west as a mixed farming and grain-producing country, is absolutely assured, and that, considering conditions in other localities at present, we have no complaint to make as to conditions here-present and future."

"What, in your opinion, will the average yield, per acre, be in this district?" questioned the Journal representative.

"Thirty bushels to the acre is, I believe, a very conservative estimate," replied Reeve Raymer, adding: "Is it any wonder these farmers are elated?"

EXCURSIONS TO EASTERN CANADA

The Grand Trunk Pacific are looking forward to a heavy passenger movement to Eastern Canada this fall. The abundant crop which the West is reaping at the present time should make it possible for their expectations to be realized.

The Grand Trunk Pacific has now another new route to offer this year for those who are going to Eastern Canada on their Christmas holidays, with through tourist and standard sleeping cars, via the Transcontinental line, "All Canadian route," in addition to being able to send passengers via St. Paul, Minneapolis, Duluth, Chicago and the Grand Trunk railway system. Therefore, any person contemplating a trip would do well to consult Grand Trunk Pacific agents, as they are the only railway agents in Western Canada today in a position to ticket passengers over any line they may wish to travel.

Always alert as to the requirements of its patrons, it spares no opportunity in catering to the wants of the most exacting and will have for this

In the Imperial Hotel, Mirror possesses a hostelry that a town many times the size of this might well be proud of. In our travels throughout the West, we have yet to observe an hotel which surpasses the Imperial for table, sleeping facilities, service and, to our mind, most important of all, courteous treatment from the moment a guest enters the front door.

Fred Estey, lumber inspector for the Mountain Mills Lumber Association of B. C., with headquarters at Calgary, arrived in the city Tuesday, on a business trip, and registered at the Imperial.

C. L. Suggett, our popular druggist, spent Monday in pursuit of the elusive partridge. He journeyed some eight miles down the lake and succeeded in bagging quite a number of birds. Mr. Suggett reports a fairly plentiful supply of partridge down the lake, and as the season has just recently opened, the birds are somewhat tame.

Threshers Busy

Threshing operations in this district have been held up intermittently during the past few weeks. The farmers who stored their grain when they had the opportunity will reap the benefits of their labours, as the rain and snow, effect the granary of the grain in the stock, to some extent.

Threshing outfits, which have been and are now busy in the neighborhood are: Geo. Neis and Herv Lunds, Philip Neis, Estey's, Simpson's, Jaek's, Cook's, Bailey's and Hicklings.

The prospects for a stretch of favorable weather appears O. K. at writing and the threshers will take advantage of it to the limit.

new service electric lighted sleeping cars, both standard and tourist, with electric lights in both lower and upper berths. The road-bed is in keeping with the balance of the "Best New Railway Ever Constructed," coupled with the electric lighting equipment, are features in which the Grand Trunk Pacific excell and are well worth considering before starting on a journey.

The Paris Jubilee Singers, composed of Jack Paris W. Hogue, Miss Scott and Miss Melva, who term themselves "The Chocolate Fun Makers," played to a fair-sized audience Monday night. After two hours of music, song and monologue, the main part of the entertainment being performed by Mr. Paris, who, as a comedian drew considerable well-merited applause, the company rendered music to which some fifteen couples tripped the light fantastic until the wee sma' hours. A notable exception noticed at the show was the absolutely clean nature of every number rendered. A special effort was made to please the children and, to judge by the squeals of delight emanating from the juvenile section of the house, their efforts were appreciated by the young stars.

LOCAL NEWS OF THE WEEK

J. W. Pringle left last Tuesday afternoon for Winnipeg, Man., on a ten days' trip.

R. L. Pretty, principal of Mirror school, is attending the Teachers' Convention at Stettler on Thursday and Friday this week. Mr. Pretty is delivering an address on "Pensmanship," a subject on which he is well able to discourse.

A. J. Frank, of Bashaw, paid a visit to Mirror last week.

Phone Flewelling for prices on grain in carload lots. Wires received every day.

Mr. and Mrs. Smith, of Biggar, Sask., have moved into the Hickman house. Mr. Smith is locomotive foreman at the G.T.P. roundhouse.

Mr. H. Salton, who for the past year has been publishing the Mirror Journal, left Wednesday for Clive, where he assumes control of the Clive News Record. The Journal sends Mr. Salton its best wishes for success in his new venture.

He is succeeded as publisher of this paper by M. M. Pettigrew, a newspaperman of Vancouver, B. C. (Note—Mr. Pettigrew has, since writing the above, left for other parts.—Ed.)

Telephone linemen have been engaged in repairing the system within the city limits the past week.

H. Greenwood, of Nelson, B. C., arrived in the city last week and is a guest at the Imperial.

The 1915 village and school tax notices were mailed on Friday, Oct. 1st. A 10 percent rebate on school taxes, providing the same are paid within 30 days from the 1st, should be taken advantage of by all rate payers.

Mrs. James Steele and sons Hughie and Mack, of Edmonton, are visiting with Mrs. F. Fullock. Miss Vera Steele will return home next Monday after a month's visit with the Fullocks in Ville and Toronto, Ont.

R. R. Mowberry, of Pickering, Ont., was a visitor in the city this week.

BRITISH TOMMIES "SOMEWHERE IN FRANCE"

R. Beresford, E. Baen and W. Whitehorne, who for the past fortnight have been engaged in changing the location of our telephone exchange, completed their work Tuesday and left for Dunvegan.

E. D. Merrill, of Stockton, Cal., is registered at the Imperial. Mr. Merrill has accepted a situation with the G. T. P., as brakeman, with headquarters at Mirror.

The Ladies' Aid of the Methodist Church will meet at the home of Mrs. Dave Hutchinson's, instead of Mrs. Mat. Hutchinson's, on Thursday afternoon, Oct. 14th.

Next Monday, the 11th, is Thanksgiving Day and a public holiday.

R. Paton, G. T. P. brakeman, received a wire on Thursday last that his brother was seriously ill at Italy River, Ont., and left the same day to visit him.

Mr. and Mrs. H. W. Paunruck and daughters, of Alex, were transient visitors in Mirror last Sunday.

A. E. McDonald, representing the Consolidated Novelty Co., Winnipeg, arrived in Mirror on Monday, leaving for Stettler the following day. Mr. McDonald reports business in his line fairly brisk.

J. A. Yeomans, of Red Deer, paid Mirror a visit this week.

A. G. Holland left Wednesday morning of last week on a business trip to the Coast, arriving home on Tuesday of this week. He states that business in B. C. has taken a big slump within the past few months. In one case a loss of nearly 40 per cent. was reported. There are worse places than Alberta.

Miss Pringle arrived home last Saturday from a three months' enjoyable visit with relatives and friends at Belleville and Toronto, Ont.

Mr. and Mrs. J. H. Salton and children left on Tuesday last for Clive, Alta., where they will make their home.

Mr. Maxfield, of Wainwright, is filling the position of freight agent at the local G.T.P. office. Mrs. Maxfield arrived on Saturday. They have taken up their residence in the Veltin cottage.

A judicial sale of farm lands is advertised in this issue at the Imperial hotel, Mirror, on Tuesday, the 29th day of October. The land in question is the S. W. 1/4, sec. 10, twp. 41, rge. 22, W. 4th mer. A. J. Frank, of Bashaw, will be the auctioneer.

Dr. Meyer and J. W. Pringle have bought the building known as the Mirror Cash Store. Alterations have been made to the interior, and the local exchange of the Alberta Government telephone system is located there. Miss Hilda Simpson is the operator.

Holy Communion will be observed in St. Monica's Church, Mirror, on Sunday morning next, at 11 o'clock.

Change in Names

The regular monthly meeting of the Village Council was held on Monday evening last. President—Reeve Raymer and Councillor Duitman.

Accounts totalling \$121.76 were ordered paid.

A by-law to change the names of the avenues and substitute numbers was introduced and received its first and second reading.

The changes proposed are as follows:

Cook avenue	to be First avenue
Ronnie	" Second "
Gillman	" Third "
Carroll	" Fourth "
Frances	" Fifth "
Lois	" Sixth "
Wade	" Seventh "
Wilson	" Eighth "
Kenecay	" Ninth "
Ethan	" Tenth "
Seward	" Eleventh "
Albert	" Twelfth "
Earl	" Thirteenth "
Watson	" Fourteenth "
Esther	" Fifteenth "

Northcliffe boulevard to be South boulevard.
Whitefriar's boulevard to be North boulevard.

"On the Field of Honor"

The publishers of the Family Herald and Weekly Star, Montreal, are making a strong bid for that beautiful picture, full of pathos, entitled "On the Field of Honor." It is assumed the publishers of the Family Herald have in mind using it as a presentation plate. If that is so there is a great treat in store for readers of the Family Herald and Weekly Star this autumn. In past years The Family Herald of Montreal has been noted not only for the wonderful excellence of that journal but for many beautiful pictures it has presented to its readers.

The Family Herald has a cause for succeeding in anything it undertakes, and we feel sure if it is humanly possible to secure "On the Field of Honor" that the Field of Honor" that the publishers will succeed in getting it. "On the Field of Honor" is attracting widespread attention in Europe.

INTERESTING PROVINCIAL NOTES OF THE WEEK

Dr. Brett, of Bismarck, will be the next Lieutenant-Governor. It is not definitely known as yet when he will assume office.

The new Government elevator at Calgary is now ready for business.

The commercial travellers of Western Canada are sending a monster petition to the Dominion Government, asking that all public holidays be celebrated on Mondays, so that they may spend their holidays home with their families instead of, as at present, killing time in some country hotel.

The Stampede held at Treherne last week was, despite the fact that so many of the farmers in the surrounding district were engaged in threshing operations, fairly successful. Results: Saddle bucking contest—1st, G. Gatineau; 2nd, Guy Ellis. Bareback bucking—1st, G. Gatineau; 2nd, H. Horsfall; 3rd, H. Kennedy. Wild horse race—1st, H. Gatineau; 2nd, Lee Leudrum; 3rd, Guy Ellis.

The contemplated change in schedule on the G.T.P. has been indefinitely postponed, the present timetable remaining as heretofore.

Norace G. Gelberg, a resident of Alex for a number of years, died on Friday last and was buried on Sunday by the I.O.O. F., of which order the deceased was a member.

The Vermilion tenth annual exhibition came to a close Wednesday. The attendance was large and the exhibition was in every way a success. The principal feature was the showing of horses and cattle.

The famous gun-making firm of Vickers & Maxim, England, are financing, at an estimated cost of one hundred thousand dollars, a monster expedition to prospect the district north of Edmonton for nickel deposits. Headed by H. V. Dardier, the expedition left Edmonton recently, to spend two and a half years in the north.

The next convention of the U. F. A. will be held in Calgary January 18 to 21, inclusive.

Private Arthur Clark, of the Princess Patricia's, has been given a lieutenant's commission. Lieut. Clark is the son of Dr. Michael Clark, M. P. for Red Deer. He is one of the original force who have come through the campaign.

PILE.

You will find relief in Zam-Buk! It eases the burning, aching pain, stops bleeding and keeps case. Persevere, with Zam-Buk, means cure. Why not prove this? *All Drugs and Stores use Zam-Buk.*

Stopping Bullets

Experiments in Resisting Power of Clay, Earth and Sand

It is not as difficult as some imagine to stop a rifle bullet, though it takes a good deal of earth and sand for the purpose.

During a later campaign in Russia, for instance, it was demonstrated time and again that three or four rifle bullets could be stopped by a shield against rifle bullets at long range as the same thickness of snow.

Thus, when the snow was packed the more

Experiments conducted by Russian military scientists along these lines have shown that a rifle bullet can be stopped by a rifle bullet will not penetrate eight feet of snow.

In the days of trench warfare an excellent opportunity has been afforded to test the resistive power of earth and sand, and some very striking and apparently anomalous results have been obtained.

Five feet of clay will stop a modern rifle bullet at the closest range, and a rifle bullet will penetrate only a half a foot of sand, but three feet of tightly packed earth is not sufficient to stop a bullet, and it will penetrate through sand further at long distance than it will at short range.

Thus, the latter fact will appear more reasonable when it is known that the penetration of a bullet is usually affected as much by the air resistance of the bullet as by the bullet itself.

This latter fact will appear more reasonable when it is known that the bullet will penetrate through sand at two feet of the same kind of sand.

Again, while it takes 27 inches of sand to stop a bullet at point blank range, only 15 inches are required when the range is increased to 100 yards, and this should be more easily penetrated at long range than at close range is now known.

Milner's Worm Powers work so effectively that no traces of worms can be found. The pests are macerated in the soil, and the worms are destroyed without being perceptible. They make an entire and clean sweep of the soil.

A worm can find lodgment there when there is no other open soil. No worm can be found there or destroyed by their action.

Tommy came out of a room where his father was taking down a carpet. His mother was in the room.

"Why, Tommy, what is the matter?" asked the mother.

"I pinched my finger with the bandage," Tommy replied through his sobs.

"Well, you needn't cry about a thing like that," comforted his mother.

"I did," Tommy answered.

Experiments in Crop Production

Interesting Bulletin Tells About Forage Plant Tests

Results of experiments in crop production, without seed or without fertilizer, are published in a bulletin, and, therefore, a publication describing them. Such a work is Bulletin No. 84 of the Division of Forage Plants, Department of Agriculture, Ottawa, which gives a summary of results reached at the Central and different branch stations throughout the country, and that can be had free on request. The Division of Forage Plants, Department of Agriculture, Ottawa. There are included also some recommendations for the production of forage, or crop production methods to follow, as deduced from the results of the experiments.

A variety of tests at the Central station showed that the best varieties of corn in twelve experiments with ears of 100 to 120 grains per ear, were Yellow and Free Frost, and that, while of the emmer varieties, the highest yield in tonnage, White and Yellow, were the best.

Yield of the highest yield in tonnage, White and Yellow, were the best.

Yield of the highest yield in tonnage, White and Yellow, were the best.

Yield of the highest yield in tonnage, White and Yellow, were the best.

Hessian Fly in the West

Information Regarding This Pest is Given in Government Bulletin

The Hessian Fly is well known to damage the grain crop in the United States; during the present season it has caused the loss of millions of dollars in grain and other crops in Western Canada. Its depredations fortunately have not attained the extent of those in the United States, but it is spreading rapidly across the continent and in order to be able to control it, the Government has established the Entomological Branch of the Dominion Department of Agriculture in Ottawa. The results of this investigation, which has been published in a bulletin, are as follows:

The Hessian Fly is a native of Europe, and has been introduced into North America.

Its depredations fortunately have not attained the extent of those in the United States, but it is spreading rapidly across the continent and in order to be able to control it, the Government has established the Entomological Branch of the Dominion Department of Agriculture in Ottawa. The results of this investigation, which has been published in a bulletin, are as follows:

The Hessian Fly is well known to damage the grain crop in the United States; during the present season it has caused the loss of millions of dollars in grain and other crops in Western Canada. Its depredations fortunately have not attained the extent of those in the United States, but it is spreading rapidly across the continent and in order to be able to control it, the Government has established the Entomological Branch of the Dominion Department of Agriculture in Ottawa. The results of this investigation, which has been published in a bulletin, are as follows:

The Benefits of The Agricultural Society

One of the prize-winning essays at the Alix Fall Fair.

There are a great many ways in which people are benefited by Agricultural Fairs, not only in the winning of prizes, but also what they learn.

It has been said in many respects that it is a waste of time going to such fairs, but many people do not go for the good that is in it, but to criticise things which they have no business with.

If you were to listen carefully to the judge you would learn a great deal, for instance, when a judge is judging horses or cattle he will tell the faults of the animals, and how you could remedy them. Many things are learned from what the judges say.

The fair is also a benefit to the town and community you live in. It gives the livery barns trade, also the stores. Many of the farmers take this as their only holiday in a year. They may come into town once in a while but their families do not get in with them. There is a bad fault to every fair. There are a few men who come with certain kinds

of games and make a great deal of money. They do not leave the money in the town, therefore it is not right for these men to come to the town at all.

this 23rd day of September, 1915.

G. P. OWENS FENWICK,
Acting Deputy Attorney
General.

THE NAME DeLaval ON YOUR

Cream Separator means a great deal to you. It means that you have the **Best Separator** made. It means that it will get every tickle's worth of cream out of your milk, and will do it for years without causing you any annoyance or expense. It will work for you a week a day the year round and never kick. The price of **DeLaval Separators** will be advanced November 1st, next. If you need a separator think this over and buy a **DeLaval** this month.

JUDICIAL SALE OF FARM LANDS NEAR MIRROR, ALTA.

Pursuant to Judgment and Final Order for Sale there will be offered for sale subject to the conditions and reservations set out in the original Deed from the Crown, or in the existing Certificate of Title, with the approbation of a Judge or Master of the Supreme Court of Alberta, Judicial District of Edmonton, or Justice of the Peace at Mirror, Alberta, on Tuesday, the 29th day of October, 1916, at the hour of two o'clock in the afternoon, at the South West Quarter of Section 10, Township 11, Range 25, West of the 4th Meridian, in the Province of Alberta. Reserving thereout mines and minerals. The Vendor is informed that the land is situated more than 8 miles from the nearest town or school and the nearest railway is a cattle loading siding on the said railway about one and a half miles from the land. The land is a good farm land, the soil ranging from 12 to 18 inches in depth with clay subsoil. About 46 acres have been cultivated. There is a frame dwelling 16 x 16, one and a half stories, with lead to the x 18 and a half by 12 ft. addition. The walls are in bad need of repair. The land is all fenced with a three wire fence on the South and West and two wire fence on the East and North. Boundary lines are visible. The land is in good condition.

The sale is subject to a reserve bid which has been fixed by the Master. TERMS—Ten percent of the purchase money is to be paid at the time of sale and the balance is to be paid in 60 days. Payment to be made in 12 monthly installments of 15 percent, within thirty months with interest at 8 percent, and the balance not exceeding 80 percent, extending a Mortgage on the property for the sum of \$1000 for ten (10) years repayable in ten consecutive annual installments with interest at 8 percent, payable on the first day of November of each year, by instalments of \$100.00 monthly, and the balance at the end of ten years.

In other respects the terms and conditions of sale will be the standing conditions of sale of the Supreme Court of Alberta as approved by the Master.

For further particulars apply to: M. E. Easby, Nevel, Ford, Bolton & Mount, Solicitors, Edmonton, Alta. (Sig) ALEX. TAYLOR, C.S.C. Dated this 23rd day of Sept., A.D. 1915. 483-3p.

For further particulars apply to: M. E. Easby, Nevel, Ford, Bolton & Mount, Solicitors, Edmonton, Alta. (Sig) ALEX. TAYLOR, C.S.C. Dated this 23rd day of Sept., A.D. 1915. 483-3p.
